IN THE LEGISLATIVE ASSEMBLY.

SESSION 1872, 1873.

City of Victoria, Water.

NOTICE IS HEREBY GIVEN THAT application is intended to be made to the Legislative Assembly during the next ensuing session for leave to bring in a Bill to incorporate a Company to be called The City of Victoria Waterworks Company, and to enable The Company to construct and maintain Works for supplying the City and District of Victoria with water, and to construct and maintain reservoirs, sluices, ditches, drain, conduits, embankments, pumps, steam and other engines necessary for the purpose of bringing pure water from Elk Lake to Victoria with power to make deviations and to take water from Prospect Lake, Swan Lake, and Cedar Hill Lake, or any of them, and to make all necessary works for such purpose, and to cross, alter, divert, or stop up any roads, streets, public places, bridges, works, pipes, sewers, drains, streams, and water courses, and to purchase by compulsion or otherwise any lands and other hereditaments requisite for the purposes aforesaid. Also, to raise further sums of money, and to increase their capital by the creation of shares or stock, with or without preference, priority, or guarantee on payment of interest or dividend, or with other special rights and privileges, and by borrowing on mortgage or debenture, or by all or any of such means, and to enable The Company to levy tolls, rates, and charges for the supply of water, and to make provisions for preventing the waste of the water supplied, and to adopt proper regulations in reference thereto.

The Bill will vary, and extinguish all existing rights and privileges which would interfere with its objects, and will incorporate with itself all or some of the provisions of The Vancouver Island Land Clauses Consolidation Acts, 1863.

And notice is hereby further given that plans and sections of the said proposed works, and the lands in or through which the same are intended to be made, or which may be taken for the purposes aforesaid, together with a book of reference to such plans; and, also, a copy of this notice as published in the B. C. "Gazette," will be deposited for public inspection on or before the 30th day of November next, with the Clerk of the Bench in the City of Victoria, at his office at Boston street, in the said City, and that a copy of so much of the said plans, sections, and book of reference as relates to each district in or through which the works are proposed to be made or maintained; and also, a copy of this notice as published in the "Gazette" will be deposited for public inspection on or before the 30th day of November next, at the public school houses in said district.

In the Legislative Assembly,

SESSION 1872 1873.

CITY OF VICTORIA—WATER.

NOTICE IS HEREBY GIVEN, that application is intended to be made to the Legislative Assembly during the next ensuing session for leave to bring in a Bill for the purpose of enabling the Municipal Council of the City of Victoria to construct and maintain Works for supplying the City and District of Victoria with water, and to construct and maintain reservoirs, sluices, ditches, drains, conduits, embankments, pumps, steam and other engines, necessary for the purpose of bringing pure water from Elk Lake to Victoria, with power to make deviation and to take water from Prospect Lake, Beaver Lake, Swan Lake, and Cedar Hill Lake, or any of them, and to make all necessary works for such purpose, and to cross, break open, alter, divert, or stop up any road streets, public places, bridges, works, pipes, sewers, drains, streams, and water-courses, and to purchase by compulsion or otherwise any lands, houses and other hereditaments requisite for the purposes aforesaid and for the purpose of enabling the said Corporation to raise money by issuing debentures and levying rates for the payment of the principal sum, interest thereon and Sinking Fund, and of obtaining from the Provincial Government a guarantee at the rate not exceeding an amount to be therein referred to, or otherwise for the purpose of this Bill, as also for the purpose of levying tolls and charges for the supply of water, and to make provision for preventing the waste of water supplied, and to adopt proper regulations in reference thereto, as also to raise money by borrowing on mortgage.

The bill will incorporate with itself all or some of the provisions of the "Vancouver Island Land Clauses Consolidation Act, 1863," and all or some of the clauses of the "Public Works Act, 1872."

The plans and sections may now be seen at the Land Office, James Bay.

And notice is hereby further given, that plans and sections of the said proposed works, and the lands in or through which the same are intended to be made, or which may be taken for the purposes aforesaid, together with a Book of Reference to such plans, and also a copy of this notice as published in the *British Columbia Gazette*, will be deposited for public inspection on or before the 30th day of November instant, with the Clerk of the Bench, Victoria, and that a copy of so much of the said plans, sections and books of reference as relates to each District in or through which the works are proposed to be made or maintained, and also a copy of this notice as published in the "Gazette" will be deposited for public inspection on or before the 30th day of November, at the Public School House in each District.

Friday, February 21, 1873.

Prorogation of Parliament.

At half-past 12 o'clock to-day the second session of the first Parliament of the Province of British Columbia will be brought to a close. Upon the whole the session has been an eventful one. When it opened the administration of public affairs was in the hands of a Ministry led by Mr. McCreight, before it closed the Ministry had undergone a change, with Mr. DeCosmos as the leader. Without wishing in any way to disparage the late Government, it cannot but be confessed, even by the gentlemen who composed it, that from its inception to its termination it never possessed that degree of confidence essential either to its permanence or usefulness. Why it was so, it is not our purpose here to discuss; we but state the fact, and leave others to draw their own conclusions. When the peculiar circumstances are borne in mind under which the present Administration assumed the reins of office,—after the session had been opened and with but a few days to arrange a policy and prepare for the work before them,—it cannot but be admitted that their labors have been crowned with a degree of success beyond what they could reasonably have hoped for. Had it not been that the House reposed the most unbounded confidence in the new Admistration, and were determined to give them a liberal and generous support, they could not, under the circumstances, have carried through so many liberal and really desirable measures as they have done. Probably there has never been a session of the Legislature at which so many really useful and progressive laws have been enacted as during the one just brought to a close. That in some respects more than one of these laws will be found defective when they come to be practically applied, is not at all unlikely; but the object sought to be attained by their enacment is what will commend them to the favorable consideration of the public, and whatever their defects may be can be cured by subsequent legislation. The bill to impose a tax upon wild lands, for which the country will be indebted to the Government, is a measure that has long been demanded by the people, and will certainly operate most beneficially and be productive of lasting good to the country. Extensive tracts of valuable lands for agricultural and pastoral purposes have for years been locked up in the hands of speculators, who would neither sell them at a price that would enable purchasers to utilize them at a profit nor make any use of them themselves, thus retarding the settlement of the country and operating as a bar to public improvements. The effect of this bill will most likely be to make these persons either sell or utilize their lands, and in either event the country will be the gainer thereby. The Agricultural Societies Bill is also a measure that will do much toward aiding in the development of the agricultural resources of the country. Such societies have done a vast amount of good in the Provinces and elsewhere, and if properly conducted cannot fail to be of great advantage to British Columbia. The Drainage and Dyking Bill will be found a very useful measure, and will doubtless have the effect of bringing under cultivation large areas of excellent farming land, that without the assistance of such a measure could never be reclaimed. The Homestead Amendment Bill increases the amount of personal property exempt from forced seizure or sale by any process of law, from $150 to $500, a change in the law which we believe will be found an advantage alike to creditors and debtors, and will do much to encourage settlement in the country. The Bill to amend the law relating to Bills of Sale, will be found a very useful measure. It gives increased security to persons advancing money on personal property, and as a consequence will enable persons to realize more readily on that kind of security than they could heretofore do. The Bill to enable individual Justices of the Peace to try causes that before the passing thereof required the presence of two or more magistrates, will be found a very great convenience to settlers in the outlying districts. It was not always an easy matter to obtain the services of two magistrates, and where one could in many cases do the business just as well as two, the removal of such a restriction will no doubt give general satisfaction. Another Bill, which will be very acceptable to that class of persons called to do jury duty, is the Juries' Allowance Bill. Under this Bill jurors will be entitled to the same allowance in criminal cases as they have heretofore had in civil cases, and although the remuneration is at best but small, it will nevertheless be thankfully received by those called to discharge jury duty. The Assurances Bill is a measure to enable husbands to make provision for their wives and families by effecting insurances upon their lives, and to exempt such insurances from attachment in satisfaction of debt. The Ballot Bill is among the most important measures of the session, but as we commented upon it at considerable length the other day, it is unnecessary we should more than refer to it now. The Married Woman's Property Bill, notwithstanding all that has been said against it, is a commendable piece of legislation, and will be found to work well. The Gold Mining Amendment Bill and the Mineral Amendment Bill, are both measures of great importance to the country, and will exercise a potent influence for good in the development of our mineral resources. These are but a few of the important measures passed this session, and we feel assured they will exert a most salutary influence upon the country and promote the welfare of the people.

THAT PORTFOLIO.—As there is considerable discussion going on at present about the creating of new portfolios, the undersigned is prepared to make them in any quantity. Also, Blank Books and every description of Binding and Ruling done. R. T. WILLIAMS, at Messrs T. N. Hibben & Co's. *

The Fraser River Beet Sugar Company, (Limited), has been formed for the purpose of Manufacturing Sugar from Beets, to be grown on land acquired by the Company, consisting of rich alluvial soil well adapted for their growth

This land contains all the essentials necessary for the cultivation of the best description of Sugar Beet, being very rich in vegetable matter, and experience has shown that it is unexcelled for the purpose. Large tracts of equally valuable land can be had on very favorable terms; certainly not exceeding one tenth of the price of similar lands in California, and important consideration, as it will make a large difference in the amount of capital required.

From experiments already made on the land, the yield was found to be equal, if not superior to that from land cultivated in the most favored localities on the most improved principles.

The percentage of Saccharine matter, according to published records of European cultivators, gives 8 to 9 per cent. as the average; whereas, in the Fraser Valley, the per centage was 10 to 11; six-tenths being granulated sugar of very fine quality, and the remainder molasses of fine flavor, a result unknown elsewhere.

This being the result on new land, and with the most imperfect appliances, it will be readily understood, that with a proper system of cultivation, and with proper machinery, the profits of the company will be very large.

The quantity of sugar imported into this Province for the year ending June 30th, 1872, was valued at over $100,000; the importation of Molasses, during the same period, amounted to $15,000. It will, therefore, be seen that a ready market is open for all the sugar and molasses the company can produce. The pulp, or refuse, composes the best kind of food for fattening cattle during the winter months, when the highest prices are obtained for beef, mutton, &c.

The best of labor, it is calculated, will be as low as in California, while the fuel and other materials, including the lumber for building, will be much lower.

As the company proposes to commence operations on a limited scale at first, the Capital Stock has been fixed at $50,000, while power is reserved to the Shareholders to increase the working capital to $100,000, if considered advisable.

☞ Letters of Allotments can be obtained from the Secretary of the Company at New Westminster, and from the Bank of British Columbia, or Messrs. Robertson & Johnson at Victoria. fe20tf

CANADA.

PROVINCE OF BRITISH COLUMBIA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To all to whom these presents shall come—GREETING.

A PROCLAMATION.

GEO. A. WALKEM, Attorney-General. } WHEREAS it is provided by Section 2 of "The Municipality Act, 1872," that, upon receiving an application under the signature of the Mayor or President of any city heretofore incorporated or established, and under the corporate seal, stating that by a two-thirds majority vote of the Mayor and Council, they desire, on behalf of the inhabitants of such city, that the said Act shall apply to such city, the Lieutenant-Governor in Council by Letters Patent under the Public Seal of the Province, shall order that the said Act shall apply to such city so incorporated or established.

And whereas such application has been made as aforesaid, by the Mayor of the City of Victoria, to the Lieutenant-Governor of British Columbia in Council, praying that the said Act shall apply to the City of Victoria.

And whereas JOSEPH WILLIAM TRUTCH, as such Lieutenant-Governor in Council as aforesaid, under and by virtue of the powers and authorities conferred upon him in Council as aforesaid, by "The Municipality Act, 1872" and of all other powers and authorities him as aforesaid in that behalf enabling, hath ordered that said "Municipality Act, 1872," should apply to the City of Victoria, and that all that tract of land known as the City of Victoria, and the inhabitants thereof, shall be a Corporation under the said Act, under the name of "The Corporation of the City of Victoria," and under the provisions hereinafter contained or referred to.

NOW KNOW YE that, by these presents, We do hereby order that "The Municipality Act, 1872," should apply to the City of Victoria, and that all that said tract of land known as the City of Victoria, and the inhabitants thereof, shall be a Corporation under the said Act, and under the provisions hereinafter contained or referred to.

The said Municipality shall be called and known by the name and style of "The Corporation of the City of Victoria."

The said Municipality shall comprise all that tract of land as specified in the first part of the Schedule to the "Victoria Municipal Ordinance, 1867," as amended by Section 6 of the "Victoria Municipal Amendment Ordinance, 1869."

The Council shall consist of seven Councillors, and the whole number present at each meeting thereof shall not be less than four.

The nomination for the first election of Councillors shall be held on the 10th day of February, one thousand eight hundred and seventy-three, at 12 o'clock noon, and the election, in case a poll shall be demanded, shall be on the 11th day of February, aforesaid, and shall continue for one day only, and the poll shall be kept open between the hours of eleven A. M. and four P. M; and all the proceedings at the said elections, and the trial or trials, if any, of the validity of the elections, shall be as nearly as may be in conformity with the provisions of the "Victoria Municipal Ordinance, 1867," and Andrew Charles Elliott, Esquire, shall be the Returning Officer there at.

The nomination shall take place, and the poll, if any, shall be held at the Police Barracks, Victoria.

Seven days' notice of the time and place of nomination and holding of the poll, shall be given by the said Returning Officer, in one or more of the newspapers published in the said City.

Every person qualified to vote shall have seven votes, being one for each Councillor to be elected, but he may vote for any less number than seven: Provided always that he shall not cast more than one vote in favor of any one candidate, or vote on more than one occasion; and in the event of the number of votes being found to have been equal for any two or more candidates, one or more of whom, but not all of such candidates, being by the state of the poll entitled to be declared elected, the Returning Officer shall by a casting vote or votes, as the case may be, decide which of the candidates for whom the votes may be equal be elected; Provided that the said Returning Officer shall not vote, except in the case of an equality of votes as aforesaid.

All expenses attendant upon the said election shall be borne by the candidates in equal proportions. Such expenses shall not exceed in the whole one hundred dollars.

The first meeting of the Council shall be held on the 18 day of February, one thousand eight hundred and seventy-three, at the usual time and in the usual place for the holding of such meetings, and all proceedings at and relating to such meeting shall be held and taken as nearly as may be in accordance with the "Victoria Municipal Ordinance, 1867," the "Victoria Municipal Amendment Ordinance, 1869," and all other Acts and Ordinances relating to the said city, except so far as the same are altered by or inconsistent with "The Municipality Act, 1872," and until duly altered by By-Law in that behalf.

At the first meeting of the Council, the Councillors shall elect one of their number to act as Chairman, and to be designated as Mayor of Victoria, and his powers, privileges, and duties save as altered by or inconsistent with "The Municipality Act, 1872," or any By-Law to be duly made thereunder, and these Letters Patent shall be the same as those prescribed by the said Acts and Ordinances relating to the City of Victoria.

At such first meeting, or as soon thereafter as possible the Council may appoint a Clerk, Treasurer, Collector, and Assessor, or such officers as they may deem necessary, who shall hold office during the pleasure of the Council, and receive such remuneration as the Council may by By-Law appoint.

IN TESTIMONY WHEREOF, We have caused these Letters to be made Patent, and the Public Seal of the Province of British Columbia to be hereunto affixed: WITNESS, the Honorable JOSEPH WILLIAM TRUTCH, Lieutenant-Governor of the said Province of British Columbia, in the City of Victoria in the said Province, this 25th day of January, in the year of Our Lord One thousand eight hundred and seventy-three, and in the thirty-sixth year of Our Reign.

By Command.

The Inquest upon the Mysterious Corpse.

THE JURY BRING IN AN OPEN VERDICT.

The adjourned inquest upon the body of the man found dead in the cow shed adjoining Nias' house at Beacon Hill, was resumed yesterday at the Police Court, at 2 p. m., before A. F. Pemberton, Esq., coroner. A large number of spectators had assembled to watch the proceedings in which considerable interest was evinced.

Dr. Davie sworn—Dr. Matthews and myself made a *post mortem* examination of the body this morning (Thursday.) I have already described the external appearance of the wound; upon opening the skull, found the track of the bullet; here is the bullet, (bullet produced) also a small piece of bone, (produced) which had been driven into a vital part of the brain; the bone driven in often does as much harm as the actual bullet itself. I produce a diagram of a section of the brain which illustrates the course of the bullet, also that of the splinter of bone and the position of the external wound. (The doctor here explained the diagram to the jury.) The bullet had taken a course from its point of penetration slightly downwards and towards the right. Death was caused by the bullet wound. I know the position of the pistol before the shot was fired, but cannot say whether it was fired by the right or left hand. The course of the bullet indicates the position of the pistol immediately before it was fired; as a rule if fired by the right hand the bullet would have taken an exactly opposite direction to that it did. It was quite possible nevertheless that the shot might have been fired by the right hand; I cannot tell to a certainty if the deceased were right or left handed, his hands were very much alike, the left hand being a trifle larger than the right, the probability is, from the development of the muscles of his arms, &c., that he was a man who used both hands pretty evenly.

By the foreman—I think it very unlikely that the deceased could have walked any distance after the wound was inflicted, it is just possible, but there are a very few cases on record bearing out the possibility.

By the coroner—If the bullet wound had been inflicted by another person holding the pistol in the right hand exactly opposite to the deceased, the bullet would take a course from left to right, but probably upwards instead of downwards.

By the foreman—I do not think the deceased has had the whole of his clothes taken off; if so it would have been done *immediately* after death. The marks caused by wrinkles of the clothes are noticeable on the body of the deceased, and account for those marks on the throat which have been imagined to be made by the finger nails, &c. I do not think the wound was washed after death. There was very little external blood when I made the *post mortem* examination, evidently some blood has been brushed away since I first saw deceased, in moving him there would not probably be much external bleeding from the wound inflicted. The bullet has passed through the frontal *sinus;* it requires a great amount of velocity to carry a projectile entirely through the the skull; cannot say if the man were sitting at the time of the wound being inflicted.

James Phillips sworn—I have seen deceased before; at the end of November last was digging a ditch near to Nias' place; I saw a strange man coming along, and he entered into conversation with me; he remarked it was a nice place, and asked if I had accomodation for a boarder; I said no, and referred him to the Park Hotel. I recognize the deceased as that man; I saw him every day for a week afterwards; I should think from his conversation he had passed a good deal of time in New Brunswick, in the employ of Government there; he seemed to understand horses; he was not a working man by the way he handled the tools. About two months ago, I saw deceased again standing at the cowshed reading a book; I think he was then boarding at the Angel. I saw him again about two weeks afterwards coming out of Nias'. The last time I saw him, about a month ago, he was in the Angel hotel, playing chequers with another man; I do not know his name, but I think he is a Scotchman by his talk. I identify his coat and vest (produced). I have seen him wear those clothes frequently; he used to carry a green umbrella with him. I should judge him to be about five feet nine inches high. The photograph produced is a correct likeness of deceased; he was in the habit of drinking but I never saw him drunk; I cannot swear to the pants; deceased appeared to be in good spirits; he appeared to be quite sane, and a man of good information. I think from what he said he wanted to take up some land; he and two or three others had visited San Juan, but I do not know their names; I do not think they are here now.

Charles Morton, sworn—I recognize deceased as a man who came to my house (the Angel) on the 28th of November, from off the steamer Prince Alfred, and gave me his name as P. Stocker. He did not say where he came from; he never told me where he came from; I think he came up from San Francisco; I think the trunk was labelled San Francisco. He left mysteriously once before, for about five days, about Xmas time: then he returned, and I remarked that I thought he had run away; he said "No sir, I have been to San Juan." He paid his account up weekly; on the 11th of January he disappeared again suddenly, early in the morning, taking all his property away; he gave me no notice, and did not owe me anything; on the 29th of January, he turned up again, and told me he had been to Nanaimo; since then he has conducted himself in my house in a quiet manner. I always took him to be a gentleman of education, but of very reserved habits; he was very eccentric in his habits; he first paid me my account in English money, and acted very eccentrically about it, claiming full change as if it were American money, and then paying me the premium back. I always had to call him in the morning, but cannot say at what time he went to bed; he never spent anything on drink in my house; I can swear to the coat and vest, which I always saw him wearing; the trunk produced is also his; I see the initials—P.S.—on the trunk, but I never noticed them before now. I don't recognize the pants, but I think the necktie is the one the deceased wore; the trunk produced is the one removed from my hotel on Wednesday; the deceased left the house last Friday morning; I go round to all my rooms every morning, at about nine o'clock, to open windows, etc.; I am very positive that he left on Friday morning; the room he slept in bore marks on that morning, of the occupant having been very drunk the night before; I recognize a piece of paper produced as being found in the trunk; it says (reading) "I leave to you my trunk, etc. Chas. Morton, Esq., Feb. 13, 1873." I saw the inspector of police count the money found, amounting to $11 37½; the deceased last paid me on Monday week; he owes me about $7; he never intimated to me his intention of leaving; there was also a gold watch found in the trunk.

Thomas Cass, sworn—I am steward at the Angel hotel, and have been ever since the deceased went there; from the eccentricity of the man, we used to call him "Paul Pry." He was very peculiar in his habits; he had a vacant look about him; sometimes he looked half wild; at meals he used to tilt his chair, and swing his arms about in a peculiar manner; I never saw him take a drink, but have seen him tipsy often; I saw him tipsy about Christmas, when he slept on the third story; I sleep on the second story, and I often could see he was so tight that he nearly fell down when going up stairs; he used to carry a green umbrella, even on the finest day. I recognize the pants and suspenders as belonging to the deceased, also the vest and coat (produced); I cannot say if anybody could have had access to the bedroom of the deceased, without its being known.

Charles Morton, recalled—The bedroom of the deceased had not been occupied on Friday night last, and I was surprised to find the bed had not been slept in; the bedroom was open from Friday to Tuesday last; the trunk was locked when the Inspector of Police put the key in to open it; deceased never formed any associates in the house; boarders remarked that deceased was a strange man; the man who sleeps in the next room to the one recently occupied by the deceased says he has often heard some one in the deceased's room during the night, making a noise, laughing, and singing, and evidently delirious; that boarder did not then know that the deceased occupied the bedroom next to him.

The coroner here explained that the next witness to be examined was an Indian under arrest for being concerned in this case, and that he need not say anything to criminate himself.

Johnny Siah, through an interpreter, said he was out walking on Sunday at Beacon Hill, and there was considerable snow on the ground. He went on to the beach and played with some white boys—snow-balling. The boys went home and he went up to the pest-house; he saw a lot of bottles; he took up one and broke it and went inside, where he saw the deceased sitting down dead. He went up close to the man and saw a book resting on his knee; his back was towards the partition; his head was leaning on his shoulder and his hat was on his head, slouched over his face; he saw his right hand lying across his body with a pistol in it; he took the pistol out of his hand, and he kicked his leg and found it was quite stiff; he took the pistol and came back to town. There were five shots in the pistol; one had been fired, and consequently the chamber was empty. When he got to town he took the five shots out of the pistol and spoke to another Indian about it. He told him he had seen a white man dead out at Beacon Hill, and that he was alone when he saw him. At about 3:30 p. m. he went back to Beacon Hill, where the man was lying dead, and saw the coat and vest produced lying near to the body. He was alone when he went back. He took the coat and vest and the book and came away to Kanaka road, and he gave the book to a boy. He then took the clothes home to his house. The key, knife and stud found in the pants pockets were his own property; he took the empty cartridge case out of the pistol.

Kitty, a Cowichan Indian woman, stated she knew nothing of the case; she had seen the clothes in the house of the last witness, but she thought he had bought them; she did not know how they came there; nor did she go to Beacon Hill on Sunday.

Charley, a Songish Indian, said that last Tuesday he met "Johnny" on Johnson street, when the latter told him he wanted to sell the pistol; he said it was a good one and pulled it out of his pocket to show him it. He told him he bought it in Port Gamble and wanted to get $10 or $8 for it. The pistol produced is the one Johnny wanted to sell him.

Inspector Bowden—After bringing in the body of deceased from the pest-house, I received information which led me to go to the deceased's room in the Angel Hotel, accompanied by Mr. Morton. The key found on deceased fitted a trunk in the room. I opened the trunk and found the papers produced, also the money mentioned, and a number of other articles. There was a coat and vest in the trunk which matched exactly the pants deceased had on when found. The ball taken from the skull corresponds in weight, &c., with those found in the trunk. The cartridges found in the trunk exactly fit the pistol produced.

Here the coroner, addressing the jury, said that he thought that they had heard a good deal of evidence bearing upon the question, and perhaps the best thing to be done would be for the jury to give the police further time to follow up the case, i. e., if they were not satisfied to give a verdict of suicide.

The foreman of the jury then handed in the verdict, which is that they were of opinion that the deceased came to his death by the bullet wound in his head, but that there was not sufficient evidence before them to prove whether the wound was self-inflicted or caused by a person or persons unknown. They believed from the evidence produced, that the deceased was called P. Stocker; that he was about 45 years of age, and a native of Scotland.

THEATRE ROYAL.—The thrilling drama entitled "The Last Man" was produced last night by Mr. Waldon's troupe, in a superior manner. Mr. Waldron's playing in the main character was, as usual, superb; and Mr. Crosbie, excellently supported all round, but especially by Mrs. Waldron and Mrs. Crosbie, as Barbara Gay and Lucy, respectively, was inimitable as Jacob Codling. Mr. Crosbie is in indeed a great acquisition to the company, for his parody on Sheridan's Ride, and his rendition of Jack Racket in the comedy entitled "Who Killed Cock Robin," were grand. Miss Denin is one of the most versatile actresses we have had here for many a long year; the character taken by her—Satanella—last night, and that of Mrs. Haller the night before, show what an entire control she has over every sentiment of good acting. The company produce the splendid play "Camille" to-night, which has won such general applause whenever and wherever produced.

THE SAN JUAN QUESTION.—The Puget Sound *Courier* of the 15th inst. publishes the following resolution introduced by Senator Sargent in the House of Representatives On motion of Mr. Sargent, of California, the House of Representatives adopted the following resolution on the 25th of January. *Resolved*, That the President of the United States be requested to transmit to this House any information he may have concerning the occupation of land on San Juan island or other islands, acquired by the United States by the recent award of the King of Prussia, by subjects of Great Britain; and whether in his opinion any legislation is necessary thereupon; also, whether any order has been issued upon said subject, or any action taken thereon by the Governor of Washington Territory, or other officer of the United States Government.

EAST COAST.—The Douglas arrived down yesterday afternoon from Nanaimo and way-ports, the following are the passengers: Mrs. Raybolt, Fathers Junco and Rindeau, Dr. Trevor, Messrs. Fry, Wood, Oshin, Chapman, Jones, Jenell, Price, Hughes, Woodward, and 9 Chinamen. No news of the G. S. Wright.

Mainland.

The Municipal Council of New Westminster will call a public meeting to consider the question of opening a road to connect the city with Port Townsend, W. T., via Semiahmoo. Parties on the Sound are to cooperate in the matter.

The Mayor has been requested to write to Mr. Nelson, member for the district at Ottawa, to ask why the penitentiary has not been commenced.

Mrs. M. Thain has been presented with a gold watch by residents of the Inlet, in consideration of her efforts in opening the Sunday School.

Meetings of the N. W. Agricultural Society are being held. It is proposed to hold an exhibition in September.

The prospectus of the Fraser River Beet Root Sugar Company is published; capital, $50,000. Directors: Ernest Picht, Esq, C. Newland Trew, Esq., M. D., Henry Elliott, Esq, John A. Webster, Esq., J. C. Dieter, Esq., J. K. Suter, Esq, William Young, Esq. Secretary and Treasurer, Henry, V. Edmonds; Solicitors, Messrs. Robertson & Johnson; Bankers, the Bank of British Columbia.

The B. C. Bible Society at New Westminster is earnestly at work. A public meeting was held last week, the object of which was to bring the Society more prominently before the public. The Mayor occupied the chair.

THE MISSING STEAMER.—There is considerable anxiety manifested in Portland with regard to the fate of the missing steamer G. S. Wright now considerably overdue. With reference to the same the Portland *Bulletin* says: There is a good reason for apprehending that some serious mishap may have occurred to the steamer George S. Wright, 20 days overdue at this port from Sitka. The British steamer Otter, from the Stikeen, which is but 200 miles this side of Sitka, has arrived at Victoria, and reports that she has seen nothing of the Wright. The revenue cutter Lincoln, from Port Townsend, is probably on the way in search of her before this and the steamer Gussie Telfair, which arrived last night, will be hastened away on the similar mission as soon as possible from this port. The George S. Wright is a good sea boat, and her machinery is in first-class order, the Company having recently expended the sum of about $10,000 in fitting her up, adding new boilers, etc., and we still hope that she may turn up all right, but the delay causes much anxiety. She is said to have on board five passengers, which added to the officers and crew; make 18 persons on board.

THE INTER-OCEANIC.—The road is to be divided into six sections, and according to official authority, these sections will be completed in the order commencing from the West. Thus: British Columbia to the Rocky Mountains, is Section No. 1, to Fort Edmonton, No. 2, to Fort Garry, No, 3. and the remainder being divided from this point East. It is quite certain that for some time yet, the American lines will be used for the Eastern connection. Sir Francis Hincks having informed our Commissioners that the Government will probably extend the time for this part of the road, but that the first three sections will be completed as speedily as possible.—*Guardian.*

IN SEARCH OF THE STEAMER G. S WRIGHT. The steamer Gussie Telfair left here at an early hour this morning bound for Sitka. She goes up with the hope of gleaning some tidings of the now long overdue G. S. Wright, and if successful will render her all possible assistance. It is feared, however, that some serious accident has happened to her. Capt. Hicks of the Fraser River lightship came down on the steamer Enterprise to pilot the Gussie Telfair up, and, it is hoped, that if the Wright is within reach of aid the Telfair will be able to render it to her.

THE PUGET SOUND AND VICTORIA MAIL SERVICE.—It is reported that the North Pacific has lost the mail contract on the Sound, and to and from Victoria and the Sound. She brought no mails to this port yesterday. The steamer Etta White will be over here early this morning, carrying the mails. The North Pacific returned to Port Townsend last evening, taking over our mail and a few passengers.

FROM THE SOUND.—The steamer North Pacific arrived here yesterday at noon with freight and passengers from way ports on the Sound; she brings 70 sheep and 10 lambs for Messrs. Stafford and Hicken, 10 muttons and 3 quarters of beef for various parties, and the following passengers: C. Lunt, Snow, James, Morton, Baker, Lindley, Bramwell, Thompson, C. L. Norris and wife, McEntire, Gillian, Roberts, three Indians and three Chinamen.

MINISTERIAL DINNER.—Members of the Ministry gave a supper at the "Driard" last evening, in honor of the Premier, who it was hoped would have been in town to be present. The hon. gentleman, as will be seen, was unable to do himself the pleasure. An invitation was extended to every member of the Legislature. The evening passed off very happily.

RETURNED.—Dr. Trevor returned to this city per the steamer Douglas, yesterday, from Nanaimo. He is still suffering from the effects of his late severe accident, but with care, and every possible assistance, it is to be hoped he will soon be convalescent.

SHERIFF.—We understand that A. C. Elliott, Esq, has resigned his office of High Sheriff of the Province, and that R. Woods, Esq., late Registrar of Supreme Court, has received the appointment for Vancouver Island district, which embraces Queen Charlotte Island.

FROM NEW WESTMINSTER.—The Enterprise arrived from the Fraser yesterday afternoon, the following are the passengers by her: G. Oppenheimer, E. Picht, R. W. Deane, Dement, Wallace, Herle, Parker, J. Wadley, and Capt. Hicks.

NEW MUNICIPALITY.—A deputation waited upon the Lieutenant Governor yesterday morning, to present a petition, praying that Victoria district be incorporated into a municipality.

THE COMET.—This erratic little sheet made its final appearance last night, devoting a good deal of its space to the departure of the Premier, and the prorogation of the Legislative Assembly.

FROM PORTLAND.—The Steamer Gussie Telfair, Captain Hayes, arrived here yesterday morning from Portland with freight for which see lists of imports and consignees.

NO MAILS.—The steamer North Pacific failed to bring any mails yesterday, either English Canadian or American.

THE STEAMER.—Yesterday was sailing day of the Prince Alfred. She will be due on Monday next.

APPOINTMENT.—Hon. Mr. Walkem has been appointed Acting Premier and President of the Executive Council.

TENDERS for dredger supplies are called for.

A Beet Sugar Company.

We have had handed us a prospectus of the Fraser River Beet Sugar Company (limited) which has recently been established upon the Mainland, and which may probably owe its existence to the enterprise of Mr. Ernest Picht, of New Westminster. The company proposes to start operations upon a limited scale, and its capital has consequently been fixed at $50,000, with power reserved to the shareholders to raise the same to $100,000 if considered necessary. The prospectus states that, as the amount of money paid out of the Province during the year ending June 30th, 1872 for sugar was $100,000, and for molasses during the same period $18,000, it will be readily seen that there is a good home demand for all of these two commodities the company can produce. The refuse of the beet too is valuable as feed for cattle during the winter months. European manufacture of beet sugar shows a percentage of eight or nine parts of saccharine matter, whereas the operations as yet conducted in the Fraser valley with very imperfect machinery, show some 10 or 11 per cent., six-tenths being fine granulated sugar and the remainder molasses of a very fine quality and flavor; this would infer that with anything like perfect appliances for the manufacture of this commodity, the Fraser Valley Company would be far ahead of any European operators in the same line. The deposit required upon each allotted share is $5 subject to a call of $5, thirty days to elapse between each call. We think the formation of this company is decidedly a step in the right direction, as if successful it will doubtless lead to the employment of surplus labor, and will supply the market at a much lower figure than the foreign articles can be imported at.

LEFT FOR OTTAWA.—The Hon. Mr. DeCosmos left for Ottawa by the North Pacific, which sailed at six o'clock last evening. He travels via the Sound and Portland and thence overland to Sacramento. His colleagues in the Cabinet, nearly all of the members of the Legislature, together with a large number of friends escorted him to the steamer where they bade him farewell and a safe return. Three hearty cheers were given him, in response to which the hon. gentleman said briefly, "I thank you."

PROROGATION.—The House will meet to-day at half-past twelve. His Excellency will come down at 1 p. m., and prorogue.

City Assessor.

EDITOR STANDARD:—I am surprised to see that a saloon keeper has applied for the appointment of assessor or collector, or both, under the City Corporation. Considering that two of the Council are brewers, I sincerely hope that a job of this kind will not be perpetrated, else we shall soon have a whisky ring formed. The position of assessor should not be given to a tradesman who has his customers and non-customers. Applications for appointments like these should be called for by public advertisement. By the way, I remember that the person alluded to was one of those who went round with the requisition, asking Mr. Keast to stand for Mayor. The idea also of appointing the unwieldy Sergeant-at-Arms to the duties of collector, is too ludicrous to bear a serious thought. Let the Council bear in mind that the eyes of the taxpayers are upon them.

Feb. 20, 1873. CUSTOS.

Better Terms.

It is to be hoped that the Commissioners now sitting in Fredericton will lose no time in preparing a strong case for submission to the central authorities—a case that will commend our claims to the favorable consideration of every fair minded man and that it will be presented and pushed with the utmost energy. The last delegation that went to Ottawa accomplished nothing further than to learn that not the slightest value is to be attached to fair words and vague promises. This delegation will go prepared to accept nothing but definite promises from the Cabinet. Failing to get these the delegation will formally break with the Government and our representatives will be instructed to lay our claims before Parliament, press them at all hazards The maintenance of any particular Cabinet or party in power is of little consideration in comparison with our obtaining justice.

The Government papers in Ottawa have been advocating our claims, and the Opposition press have been noticeably silent. Are they waiting for the *Globe*, and will the *Globe* not speak until after the *Mail* has spoken, or have the Opposition leaders actually come to conclusion that they can not afford to insult and outrage New Brunswick by scoffing at its just claims on the Treasury of Canada? The situation at Ottawa is critical, and a bold and determined and skilful pushing of our claims will obtain their recognition by the Cabinet and endorsement by Parliament. —*St. John Tribune.*

NOTICE.—I take pleasure to inform Mr. E Watson's former customers, and particularly the Officers of the Fleet, that I have done all his Watch and Chronometer work for the past four years. As he has left the country, I beg to solicit the direct patronage of his former customers. All watch and fine clock work done for him by me, under one year, will by guaranteed by me. Agricultural Resources of British Columbia.

[REVIEWED BY A PRACTICAL FARMER.]

EDITOR STANDARD: Before commencing, I wish to state that I make no pretensions to being acquainted with the topography of the entire country; my information being very limited, consequently I shall confine my remarks strictly to such portions of the country as have come under my own personal observation, or on which I have had strictly reliable information.

First—Climate being of the greatest importance to the agriculturist, allow me to state that the climate on the sea-board of British Columbia is unsurpassed, if equalled in the world, for agricultural purposes, being temperate all the year round; entirely free from summer scorching drouths, likewise free from blasting winter frosts.

Second in importance is the quality of the soil, which of course varies very much in different sections of this extensive country. The soil on Vancouver Island is generally a dark sandy loam, which at first sight to a stranger would appear unproductive, but which after a fair test by the practical farmer, proves to be extremely fertile, producing abundantly any crop grown in the temperate zones, and more especially roots, vegetables, and fruit, which grow to an unprecedented size. A turnip raised near Victoria in the year 1859, after being carefully denuded of its top and roots, weighed 65 lbs. Other roots, vegetables and fruit, in proportion, with the most indifferent kind of cultivation, everything grows luxuriantly.

The same remarks applied to Vancouver Island, will equally apply to the valley of the lower Fraser, from its mouth for a distance of sixty miles up, with one exception only, viz., soil, which on the Fraser is alluvial, principally formed by the annual overflow of the Fraser river, and decayed vegetable matter, forming a soil from one to ten feet deep, almost exhaustless, and the fertility of which we can challenge the world to excel.

The next question likely to be asked by the intending immigrant, is what quantity of such land is still available for settlement? This cannot at present be answered; but the Government are about to inaugurate a system of surveys of the best of the lands, pending which no accurate information can be given as to quantity; but on a rough estimate I should say there are at least one hundred thousand acres on Vancouver Island, and as much more in the valley of the Fraser of choice lands, the greater part of which is ready for the plough without any expense of clearing. We have a good home market for everything the farmer can produce, the demand being always greater than the supply, consequently prices are generally high.

Large tracts of good land exist in the interior of the country, but are not likely to attract much attention until the lands on the seaboard which have a more favored climate have been all taken up; east of the Cascade mountains the climate being very dry, requires artificial irrigation; however, where a good supply of water can be procured the farmer feels confident of a good crop. The interior of the country is much better adapted for pastoral than agricultural purposes, there being millions of acres covered with a luxuriant growth of the most nutritious grasses; the celebrated bunch grass so named from the fact that it grows in bunches is so strong, that during the winter cattle are able to crop it on the top of 12 or 15 inches of snow. In ordinary winters cattle do well running at large on the mountains, with no feed only what they make for shift for themselves; many cattle so wintered come out good beef in the Spring. I have never seen any cultivated grasses that will make beef quicker, fatter, sweeter, or more tender. Every traveller admires the quality of the British Columbia bunch grass feed to fat; nature did not rest satisfied when she clothed the valleys and mountains with nutritious grasses to make food for man, but she knew that man as well as the lower animals, required drink as well as food, and supplied the whole country with a beautiful supply of water.

What inducements does British Columbia hold out as a field for immigration?

To the agriculturist she offers a free homestead of (160) one hundred and sixty acres of land, a good climate, good markets, and light taxes.

To the ship builder she offers an unlimited supply of the choicest timber for his purpose and a certainty of steady employment for his vessel when completed, carrying British Columbia timber and coals to foreign markets.

To the fisherman and fish curer, she offers the privilege to fish in her oceans and inland waters, which are swarming with an endless variety of fish.

To the practical miner she offers the choice of a large number of fields in which to exercise his skill,—either in gold, silver, copper or coal.

To the manufacturer of any useful article she offers an extensive home market, and remunerative prices.

To any industrious steady man she can offer a good home, under a responsible and economical form of government

ILLITERATE PLOUGHBOY.

GREAT BARGAINS.—By the steamer Prince Alfred, Messrs. TURNER, BENTON & TUNSTALL have received an invoice of goods from London, which have been bought much under market prices. They would call particular attention to a very large stock of Ecru and Black Yak Laces which are now the height of fashion in Europe. A very choice lot of Scotch Embroideries, a full assortment of Quilted Satin Shirts which are worn with Overskirts or Polonaise and are the general Costume in London and Paris this season. Also Roman Scarfs and Shawls, etc. The above goods are now offered at little over half the usual prices. T. B. T. have also received new designs in Carpets and Rugs, Patent Umbrellas, Down Quilts, Evening Flowers, etc., and a variety of other goods.

Memory presides over the past. Fell's Coffee over the present. The first lives in a rich temple hung with glorious trophies, and lined with tombs, but Fell's Coffee has but one shrine and that is every breakfast table. Its aroma walks the earth like a spirit and can be found for sale at every respectable dealers in British Columbia. Beware of spurious imitations.

SELTZER WATER and the bitter mineral waters at Pullna, in Bohemia, also Wines and Liquors for sale at the *Red House, Yates Street* by J. P. Piterre, Agent. The Bitter Mineral Waters of Pullna incontestably maintain the first rank amongst all the bitter mineral waters of this sort. There are hardly 70 years passed that one began to make use of them, hardly 40 years that the foreign countries know them, and yet they have already outwinged by far, on account of their excellent capital effects, other more weakly operating bitter mineral waters, so that they not only enjoy an excellent reputation in all the countries of Europe, but that also the rest of the parts of the world praise their excellent sanative virtue. According to the experience of the physicians and to the manner in which the medical establishments make use of them the infirmities which are most fit for the use of the bitter mineral waters of Pullna are. Inflammations, inflammable irritations, organs and congestions, catarrhs both of the organs of respiration and the apparatus of digestion, obstruction, worms; maladies of the liver and the gall-bladder, of the hemorrhoidal, vein, complaints of pregnancy, excessive corpulence, illnesses of children, the consequences of intermittent fever, in all cases when a moderately purging physic is profitable, and besides this for the use before and after other mineral water cures, and against disorder of the mind. The dose to be given is fixed: by the intensity, the age, the strength of the patient, the intended purpose of the cure, and consists from a full wine-glass, till to a bottle every day. With children and persons sensible of them little doses are sufficient. The waters keep operative and unchanged for years. Administration of the bitter mineral waters of the community at Pullna near Brux in Bohemia.

SPRING.—The advent of this the most cherished season of the year is marked by the renewed vigor in which nature asserts herself, clothing in her most beauteous garb all creation. Imbued with the inspiriting influences of the season and believing that there is a "glorious summer" ahead of us A. B. GRAY has made arrangements to receive monthly consignments of all descriptions of Dry Goods. The Prince Alfred on her last trip brought the first of these shipments, comprising a very choice assortment of the newest dress materials, black silks, wool shirtings, shawls, etc., and such a variety of general goods as makes his stock complete in all departments. An inspection of the new goods is invited. Government street, 11th February, 1873.

In these dull times when various devices are resorted to in order to impart a little life to trade, THOS. WILSON & Co. will content themselves with announcing the arrival of some new things per Prince Alfred, consisting of:—Silks, Alpacas, Satteen-Surges, Chal is, Dilaines and other Dress Materials; also Collars, Ties, Bows, and a variety of other goods. T. W. & Co. leave all questions of prices, quality, fair-dealing, etc., to the judgment of those who favor them with their custom, and disputing any real advantages of new ways of doing business adhere to that successfully followed by them for the last 12 years.

Cheap Cures for Great Diseases.

HOLLOWAY'S OINTMENT.

OLD SORES AND OLD SKIN DISEASES.

The seeds of these disorders are effectually expelled by this penetrating Unguent, not only from the superficial parts, but from the internal tissues likewise. Any case, even if of 20 years standing, speedily yields to its influence.

BRONCHITIS, DIPTHERIA, SORE THROAT, ASTHMA &C.

Rheumatism, and erysipelas may be overcome by frequently fomenting the affected parts in warm water, drying, and immediately applying this soothing Ointment. The same procedure applies equally well for curing sore throat, dipthieria bronchitis, asthma, tightness of the chest, and pain in the side, which instant treatment alone prevents degenerating the more serious maladies. The Ointment has the same derivative powers over chest complaints as a blister possesses, without causing pain or debility.

HEMORRHOIDS—PILES, AND ABSCESSES.

Thousands suffer severely for years from these annoying complaints through false delicacy. Let such purchase a pot of Holloway's Ointment, read the directions which accompany it, act upon them to the letter, and they will, without difficulty, succeed in obliterating every vestige of these harrassing ailments.

ACCIDENTAL INJURIES, INFANTILE AILMENTS

In cuts, bruises, sprains, burns, and scalds, it will be found cooling, sedative and healing. The part effected should be fomented in warm water, dried gently, and the Ointment should be instantly applied. This purifying Ointment may be safely used in all eruptions, chafings and other cutaneous affections to which children are liable.

BAD LEGS, BAD BREASTS, OLD SORES AND ULCERS.

By rubbing the Ointment round the affected parts, it penetrates to the tissues beneath, and exercises a wonderful power on all the blood flowing to, and returning from, the diseased part. The inflammation diminishes, the pain becomes less intolerable, the matter thicker, and a cure is soon effected. In all long standing cases, Holloway's Pills will thoroughly expel all depraved humors from the body.

GLANDULAR SWELLINGS, STIFF JOINTS.

This class of complaint yields without difficulty to the cooling and anti-inflammatory properties of this famed Ointment. It should be well rubbed over the affected parts, after due fomentation with warm water. It acts by stimulating the absorbents to increased activity, restraining ulceration, and promoting a free and copious circulation in the parts affected, and hence speedily and effectually ensuring a cure.

GOUT, RHEUMATISM AND PARALYSIS.

Gout and Rheumatism arise from inflammation in the parts affected;—to effect a permanent cure, adopt a cooling diet, drink plenty of water, take six of these famous Pills night and morning, and rub the Ointment most effectually twice a day into the suffering parts, and a sure is certain. The paralytic patient should take about three Pills twice a week, and let the Ointment be well rubbed into the paralyzed limb which will, in a very little time, be greatly benefited—indeed many cures have been effected by this treatment.

ERUPTION ON THE SKIN.

In this class of complaints, no matter the age, the sex, or the place, or under what name, the disease may be classified, it may be cured if this Ointment be well rubbed into the system, and Holloway's Pills taken night and morning to purify the blood.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs	Fistulas
Bad Breasts	Gout
Burns	Glandular Swellings
Bunions	Lumbago
Bite of Moschitoes and Sand-Flies.	Piles
Coco-bay	Rheumatism
Chiego-foot	Scalds
Chilblains	Sore Nipples
Chapped Hands	Sore-throats
Corns (Soft)	Skin-diseases
Cancers	Scurvy
Contracted and Stiff Joints	Sore-heads
Elephantiasis	Tumors

A FRIEND IN NEED!

HOLLOWAY'S PILLS

WONDERFUL CURE OF ASTHMA OF 18 YEARS STANDING.

Copy of a Letter from Mr. Ferdinand Mc Devett Innkeeper & Grocer, Glenties, Co. Donegal, dated 4th March, 1861.

To Professor Holloway.

Sir,—I suffered from asthma for 18 years, accompanied with great difficulty of breathing, and severe cough with spitting of blood. I was also afflicted with Piles. At different times I was treated by most skilful physicians, and was at length pronounced by them to be beyond cure;—as a last resource, I was induced to use your Pills and Ointment, and in the short space of a fortnight could walk about, and am now perfectly cured, to the astonishment of all who knew me.

BLOOD TO THE HEAD WITH GIDDINESS.

Copy of a letter from Mrs. Mary Foster, Hæf Moon Street, Totness, dated March 16th 1861.

To Professor Holloway.

Sir,—For many years I suffered periodically headache, and giddiness in the head, to such a degree that at times I have scarcely been able to walk; after obtaining the best medical advice without effect, I tried your Pills and in less than a week I was completely cured. Mrs. Donnal, Chemist, of Totness, can vouch for the truth of the above statement.

COMPLAINTS OF WOMEN AND CHILDREN.

The very mild and painless action of these invaluable Pills, recommends them to every household as a remedy for the early departures from health. Any mother, nurse, or young person guided by the direction which accompany each box of Holloway's Pills, has at once available means for checking disease, qualifying the blood, and expelling from the system all gross humors. They are, indeed, at all ages, the tried females friend.

DISORDERS OF THE KIDNEYS & OTHER INTERNAL ORGANS

Loss of appetite and flatulency are usually the forerunners of stomachic disease. These famous Pills exercise the most salutary power in all affections of the liver, and irregularities of the stomach and bowels; they restore a healthy function to every internal organ, overcome all obstructions, and cast out all impurities.

THE ACTION OF THE KIDNEYS & OTHER INTERNAL ORGANS.

The immediate loss of muscular strength and nervous energy is more particularly remarkable in renal than in most other diseases. Their deficient action for one day suffices to produce fever, hence the necessity for prompt and efficient treatment. Holloway's Pills have the great merit of restoring any suspended or diminished secretion, and of relieving any inflammation or congestion in the spleen, kidneys, or other subsidiary organs.

The tight, suffocating, anxious feeling caused by derangement of the heart, makes the sufferer look on present death as imminent. Holloway's Pills prove an efficient and ready remedy when the disturbed circulation depends on indigestion flatulency, or debilitated nervous vigor. Persons suffering from disturbance of the heart should take about six of these Pills two or three times a week, according to circumstances, to arrest the too active action of the heart.

WEAKNESS, LANGOUR AND DEBILITY.

These famous Pills will immediately remove all symptoms of debility, langour and weakness as they act upon the main springs of life, and thus save thousands from premature grave.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Inflammation
Asthma	Jaundice
Bilious Complaints	Liver Complaints
Blotches on the Skin	Lumbago
Bowel Complaints	Piles
Colics	Rheumatism
Constipation of the Bowels	Retention of Urine
Consumption	Scrofula, or King's Evil
Debility	Sore Throats
Dropsy	Stone and Gravel
Dysentery	Secondary Symptoms
Erysipelas	Tic-Douloureux
Female Irregularities	Tumours
Fevers of all kinds	Ulcers
Fits	Venereal Affections
Gout	Worms of all kinds
Head-ache	Weakness, from what ever cause &c., &c.
Indigestion
